SUMMARY

Detail-oriented Full Stack Developer and Magna Cum Laude Computer Science graduate with a proven track record of engineering high-performance enterprise systems. Recognized consistently on the President's and Dean's Lists for technical and academic excellence. Experienced in full-cycle web development, robust backend optimization, and relational database management, bringing a strong work ethic and adaptability to engineering teams.

EXPERIENCE

Full Stack Web Developer Intern | La Rose Noire Philippines

December 2025 – March 2026

- **Full-Cycle Development:** Engineered seven enterprise systems including a Driver Request System, Gate Pass System, Uniform Inspection, and MP3 Streamer utilizing PHP and MSSQL to automate administrative, logistical, and media workflows.
 - **UI/UX Modernization:** Revamped the interfaces for the Driver Request Dashboard, Emeals Schedule, QR Task Check, and Employee Feedback Hub using modern typography and responsive layouts, improving user engagement and data visualization for field operations.
 - **Advanced Functionality:** Integrated multi-tier approval architectures, biometric verification, QR-driven location tracking, and real-time synchronization to ensure data integrity and security across high-traffic internal platforms.
 - **Backend Optimization:** Dedicated 486 hours to designing robust database schemas and complex scheduling logic, ensuring high-performance data handling and automated reporting (CSV/PDF) for vehicle logistics and employee services.
-

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, PHP
 - Web Technologies: HTML, CSS, Tailwind CSS, React
 - Databases & Tools: MS SQL, Firebase
-

PROJECTS

Facebook Phishing Detector

- A sophisticated browser extension that automatically detects and blurs phishing posts on Facebook, protecting users from malicious content using advanced pattern recognition algorithms.
- **Python, Javascript, Firebase**

Sulyap Kapampangan

- An interactive mobile application designed to promote Kapampangan language learning through engaging quizzes, cultural content, and gamification elements.
- **Dart, Flutter, Firebase**

MP3 Downloader

- A specific YouTube and Spotify to MP3 downloader featuring extensive metadata tagging, modern responsive UI, and robust backend processing using yt-dlp and ffmpeg.
- **PHP, Tailwind CSS, FFmpeg**

Battle Chess

- A tactical strategy game reimagining classic chess with combat mechanics. Features include pieces with unique stats (HP/ATK/DEF), elemental terrain effects, a class system (Melee/Ranged/Tank), and a custom rendering engine with cinematic battle overlays.
- **React, TypeScript, HTML, CSS**

Universal File Converter

- A versatile file conversion tool supporting various formats including audio and video. Features a user-friendly interface for seamless media conversion.
- **PHP, JavaScript, FFmpeg**

CERTIFICATIONS & AWARDS

Technical Credentials & Training

- Most Outstanding Developer Award – La Rose Noire Philippines (March 2026)
- Modern Frontend Architecture – La Rose Noire Philippines (March 2026)
- Enterprise Backend Management – La Rose Noire Philippines (March 2026)
- AWS Cloud Foundations (March 2025)
- Cyber Threat Management (November 2024)
- Cybersecurity Essentials (September 2024)
- CCNAV7: Introduction to Networks (May 2024)

Professional Development & Seminars

- Professional Soft Skills: Problem Solving and Active Listening (March 2026)
- Cisco Networking Academy Student Congress: Future-Proofing Networking Skills in the Philippines in the Age of AI (January 2026)
- 1st Regional AI Conference: Reinventing Learning Through AI (December 2025)
- English for IT 1 (October 2024)

EDUCATION

Holy Angel University | 2022-2026

Bachelor of Science in Computer Science

- Academic Honors: Graduated Magna Cum Laude
- Distinctions: Consistently placed on the President's List and Dean's List throughout academic years 2022–2025.

Porac Model Community High School | 2016-2022

Senior High School

- Graduated With Honors (AY 2020-2021, AY 2021-2022)
-
